METHODOLOGY

The Glengariff Group, Inc. conducted a Michigan statewide survey of parents with children in public schools. The 600 sample, live operator telephone survey was conducted on August 23-26, 2021 and has a margin of error of +/-4.0% with a 95% level of confidence. 100.0% of respondents were contacted via cell phone telephone. This survey was commissioned by K-12 Alliance of Michigan.

KEY FINDINGS

STRONG APPROVAL FOR QUALITY OF PUBLIC EDUCATION

- * By a margin of 79.8%-18.5%, Michigan public school parents approve of the quality of their child’s education. 52.1% of public school parents – a majority – STRONGLY APPROVE of the quality of their child’s education. Only 11.9% STRONGLY DISAPPROVE of the quality of their child’s education.

The highest levels of disapproval came from Unvaccinated parents (36.5% disapprove), Rural parents (36.1% disapprove), Trump Republican parents (34.3% disapprove), and Strong Republican parents (32.8% disapprove)

69.0% APPROVE OF SUPPORT GIVEN TO THEIR CHILD DURING COVID

- * By a margin of 69.0%-24.8%, Michigan public school parents approve of the way their school supported their child during the Covid epidemic last school year. 45.3% STRONGLY APPROVE while only 16.0% STRONGLY DISAPPROVE.

There are strong correlations to party affiliation and political philosophy to the degree of approval of how their school performed. But the strongest disapproval came from parents in rural school districts and parents who are not vaccinated.

PARENTS SPLIT ON WHETHER THEIR CHILD HAS FALLEN BEHIND ACADEMICALLY

* 48.9% of public-school parents believe their child has fallen behind academically as a result of the pandemic last year. 49.9% of parents believe their child is on track or ahead academically.

63.0% of Detroit public school parents, 60.2% of Trump Republican parents and 62.0% of unvaccinated parents believe their child has fallen behind academically.

* Of those parents who believe their child has fallen behind academically, 60.9% believe their school has the resources and support to put their child back on track academically. 20.7% believe their school does not have the necessary resources, and 17.4% of parents just are not sure.

Those parents most likely to believe their school does NOT have the resources are parents with a skilled trades education (29.4%), Independent parents (29.2%), and parents with a college education (24.5%).

26.6% of men believe their school does not have the required resources while 15.6% of women believe their school does not have the required resources.

77.0% COMFORTABLE WITH SENDING CHILDREN BACK TO SCHOOL

- * By a margin of 77.0%-22.4% public school parents are largely comfortable with sending their children back to the classroom this fall. 53.0% of public school parents are VERY COMFORTABLE sending their children back to the classroom. Only 8.7% of parents are VERY UNCOMFORTABLE sending their children back to the classroom.

Parents most uncomfortable with sending their children back to the classroom were African American parents (43.0% uncomfortable), Detroit parents (42.9% uncomfortable), Sanders Democratic parents (40.7% uncomfortable), and Strong Democratic parents (36.4% uncomfortable).

Parents who were uncomfortable with sending their children back to the classroom were asked why they were uncomfortable in an open-ended question:

30.6% were concerned about the Delta variant.

16.4% said they were concerned there was no mask requirement.

14.2% were concerned that some kids cannot get the vaccine.

9.7% were concerned about lack of safety protocols.

8.2% were concerned because there WAS a mask requirement and they oppose it.

6.0% said their child was a high risk or there were high risk people in the household.

57.1% BELIEVE STRICT COVID PROTOCOLS WILL BE REQUIRED

- * Parents were asked if they agree or disagree that schools will need to institute strict new safety protocols to make schools safe for students' return. By a margin of 57.1%-38.2%, public school parents agree that new safety protocols will be required. 41.8% of parents STRONGLY AGREE while 23.7% of parents STRONGLY DISAGREE.

<u>Demographic</u>	<u>Agree</u>	<u>Disagree</u>

PARENTS SPLIT BY PARTY ON MASK REQUIREMENT

* By a margin of 49.4%-45.3%, Michigan public school parents are statistically split on whether students and employees should be required to wear masks in school. 38.7% STRONGLY SUPPORT mandating masks while 36.5% STRONGLY OPPOSE mandating masks.

Demographic	Support Masks	Oppose Masks
Strong Democratic	89.9%	8.5%
Lean Democratic	84.2%	10.6%

MAJORITY OF PARENTS BELIEVE PARENTS SHOULD MAKE MASK DECISION

- * By a margin of 54.5%-41.7%, Michigan public school parents believe parents should be left to make the decision about mask wearing for their child. Suburban parents are statistically split on this decision. Urban parents strongly support mask requirements. But Small Town and Rural parents believe it is a parental decision by wide margins.

Type of Town	Require Masks	Parental Decision
Urban	61.2%	34.7%
Suburban	49.2%	46.8%
Small Town	34.5%	61.3%
Rural	16.7%	80.6%

MAJORITY SUPPORTS RETURN TO REMOTE LEARNING IF CASES INCREASE

- * By a margin of 57.2%-38.0%, Michigan public-school parents would support going back to remote learning if Covid cases spike again until the caseloads decline. While 39.2% would STRONGLY SUPPORT remote learning, 30.0% would STRONGLY OPPOSE remote learning if Covid cases spike again.

The split among parents continues by party affiliation and political philosophy. But there are sharp differences that develop by race, type or town, gender and vaccination status of the parent.

Demographic	Support Remote	Oppose Remote
White	53.0%	41.7%
African American	91.2%	7.6%

STUDENT VACCINATION STATUS TIED DIRECTLY TO PARENT'S VACCINATION STATUS

* Respondents were asked their vaccination status. They were then asked if they had children aged 12-17, what was their child's vaccination status.

Among parents: 58.2% are vaccinated. 3.8% will get vaccinated. 28.3% will not get vaccinated. 9.7% declined to answer the question.

Among their children aged 12-17: 45.5% are vaccinated. 49.3% are not vaccinated. 5.3% declined to answer the question.

The chart below looks at key demographic groups and provides the vaccination rate for parents compared to the vaccination for 12-17 year-old children. The status of a child's vaccination is directly tied to their parent's vaccination status.

58.3% OF PARENTS OPPOSE VACCINE MANDATE

- * Parents were asked once final FDA approval is given for the Pfizer and Moderna vaccines for children, would they support or oppose requiring students to be vaccinated for Covid. By a margin of 58.3%-36.5%, parents oppose requiring Covid vaccinations for students. 50.8% of parents, a majority – STRONGLY OPPOSE requiring Covid vaccinations for students.

The chart below compares whether parents support or oppose requiring student vaccinations by the vaccination status of the parent.

<u>Parental Vaccination Status</u>	<u>Support</u>	<u>Oppose</u>
Vaccinated	58.2%	36.1%
Will Get Vaccinated	44.7%	56.5%
Will NOT Vaccinate	3.0%	96.4%

HIGH PRIORITY ON SAFETY

- * Parents were asked on a one to ten scale, how important it was to them that children be safe from Covid in the classroom. The higher the number the greater the importance. Parents rated their concern for safety at 8.3 on a ten-point scale. The sharpest differences came by party affiliation, type of town, and vaccination status.

<u>Demographic</u>	<u>Score</u>

Will Vaccinate	8.7
Will NOT Vaccinate	6.9

- * Parents were asked on a one to ten scale, how important it was to them that children remain in the classroom for learning during the pandemic. The higher the number the greater the desire to keep children in the classroom. Parents rated their concern for staying in the classroom at 8.3 on a ten-point scale.

On this question, party affiliation numbers flipped from the previous question on the importance of safety.

<u>Party Affiliation</u>	<u>Score</u>
Strong Democratic	7.0
Lean Democratic	7.8
Independent	8.5
Lean Republican	8.9
Strong Republican	9.2

- * Parents were asked which is more important: That children remain in the classroom for learning or that children be safe from Covid in the classroom. By a margin of 49.5%-35.5%, parents said being safe from Covid was more important than being in the classroom for learning. 11.3% of respondents said both are equally important.

<u>Demographic</u>	<u>Classroom Learning</u>	<u>Safe from Covid</u>

TUTORING AND SKILLED TRADES TOP PRIORITIES FOR PARENTS

* Parents were asked of six education spending priorities, which ONE was most important for them.

24.8%	Individualized tutoring for students
22.7%	More options for skilled trades training
18.5%	More nurses and counselors to improve student’s mental and physical health
12.5%	Health and safety upgrades in school buildings
10.0%	More reading coaches for students
7.0%	More options for college level classes

Skilled trades learning was the top choice for parents with a high school education or a skilled trades certification. Individualized tutoring was the top choice for parents with some post high school education or a college degree.

Republican parents and, specifically Trump Republican parents, place a far higher priority on skilled trades learning than do other parents.

13.2% of men chose more nurses while 23.4% of women chose more nurses.

Among urban and suburban parents, individualized tutoring and more nurses were the top two priorities. Among small town and rural parents, skilled trades learning was the top priority.

78.5% SUPPORT MAKING FUNDING INCREASES PERMANENT

- * By a margin of 78.5%-11.7%, Michigan public school parents support making the temporary increase in public school funding permanent. 61.8% of parents **STRONGLY SUPPORT** making the temporary increase permanent.

A minimum of 60% of ***EVERY DEMOGRAPHIC GROUP*** supports extending the temporary increase to a permanent increase.

- * Parents were asked if they would be more or less likely to vote for a candidate if they knew that the candidate supported making the temporary increase in public school funding permanent. 52.4% of parents would be more likely to support the candidate while 9.0% would be less likely. 30.7% of parents said it would not matter to them. 32.7% of parents would be **MUCH MORE LIKELY** to support the candidate.

Democratic voters were far more likely to prioritize the importance of making the temporary increase permanent compared to Republican voters. While 56.5% of Independent voters would be more likely to support the candidate, 32.0% would be **MUCH MORE LIKELY**.

MICHIGAN PUBLIC SCHOOL PARENTS SURVEY

Hello, my name is _____. I'm not selling anything. I'm doing a quick six-minute survey of Michigan parents with children in public schools.

A. Do you have children currently enrolled in a Michigan public school in grades Kindergarten through 12th grade?

- | | | |
|----|---------------------------|--------------|
| 1. | YES....CONTINUE | 100.0% (600) |
| 2. | No....THANK AND TERMINATE | |

1. Can you tell me in which county your student goes to public school? IF WAYNE COUNTY, ASK: WOULD THAT BE IN DETROIT OR OUTSIDE OF DETROIT?
